

INTERGRAPH GOVERNMENT SOLUTIONS

Company Background and Overview

ABOUT IGS

Intergraph Government Solutions (IGS) is an independent subsidiary for Intergraph Corporation's U.S. federal business. As a premier provider of integrated geospatial and technical solutions to the US Government, IGS empowers government agencies to make smarter and faster operational decisions. IGS helps its government customers create intelligent maps, analyze geospatial intelligence, manage assets and infrastructure, and provide dispatch emergency services. It transforms complex data from disparate sources into real time actionable information. With its deep industry expertise and long tradition of technical innovation, IGS also helps its government customers optimize and streamline their operations, protect their critical assets, and improve operational performance and readiness while reducing costs.

Defense and intelligence agencies have relied on IGS for 40 years because we bring together people, data, and systems for faster and more accurate decision making. Our geospatially powered solutions transform vast amounts of complex data into actionable intelligence, protecting U.S. and global interests and supporting the warfighter.

Vision

IGS' vision is to be a premier provider of integrated geospatial and technical solutions to the U.S. Federal Government.

Mission

The mission of IGS is to empower U.S. Federal Government agencies to make smarter and faster operational decisions. Through superior software and services, we enable our customers to organize vast amounts of complex data into understandable visual representations. We help our customers to optimize and protect their operations to make the world safer and more productive.

Core Values

- Customer satisfaction is paramount to business success – we strive to exceed customer expectations.
- We are results-oriented – we seek continuous improvement through aggressive, attainable goals.
- We are committed to innovation – innovation can transform the way our customers do business.
- Great teams build great companies – we seek to attract, develop, and retain leading talent.
- We aspire to lead – by setting the standard that others emulate.
- We are honest and fair – in our dealings with customers, partners, shareholders, communities and each other.

Quality Management

"Every employee is committed to implementing quality processes in order to meet or exceed customer expectations and ensure mutual profitability...Customer satisfaction for all internal and external customers is the expectation, and will be achieved through processes that deliver a superior product or service, on time, and at the right price." - Joe Fehrenbach, COO

Quality Management Objectives

- Provide Intergraph products and integrated turnkey solutions to meet our client's requirements, schedule & budget
- Maintain a customer satisfaction rate of at least a 4 on a 5 point scale
- Continuously improve product quality and process efficiency
- Maintain a fair and creative work environment that respects new ideas and hard work

Industry Certifications

- Member of the Open GIS Consortium
- Certified to the ISO 9001-2008 standard

SOLUTIONS, PRODUCTS & SERVICES

Geospatial

As the geospatial experts who continue to lead the industry in an evolving world, Intergraph Government Solutions provides accurate and flexible solutions to complex work flow challenges.

What does that mean for your organization? Whether you are responsible for a military operation or evaluating the environmental impact of a disaster on federal forestlands, we've developed easy-to-use workflow tools that the layman can understand. Our server-based solutions are designed to let you cost effectively manage and share data with a broader user base and allow you to take advantage of today's "cloud" and mobile technologies.

The IGS geospatial applications integrate well with other systems you may be using. As the holder of the largest collection of open standards certifications in the world, we continue to pioneer open data storage and sharing.

Incorporating our proven ERDAS® and GeoMedia® products among many others, IGS provides expert service, solutions, tools, and products.

Public Safety, Security & Emergency Management

Whether your responsibilities lie in protecting our borders, fighting terrorism, or safeguarding military installations and those who live and work on them, Intergraph Government Solutions is your trusted partner.

IGS' industry-leading solutions provide public safety, military personnel and government agencies with the advanced technology and tools they need to achieve a common operating picture, helping to create a safer world on a local, regional, and national level.

IGS also supports emergency management activities, including prevention and response planning, analysis, monitoring, and recovery for natural disasters and large public events. An integral component, our Spatial Data Infrastructure application, provides you with the technology framework you need for cost-effective

and efficient communication involving geospatially related information.

Maintenance Management

The IGS team offers award-winning Aircraft Maintenance Management services and support. IGS has heavily invested in recruiting and retaining a unique blend of skilled resources from both the commercial airline and military maintenance arenas with extensive expertise in engineering, aircraft maintenance, lean process improvement, and information technology (IT). Our holistic approach considers all of these critical maintenance program elements to ensure a complete, smart maintenance solution. By leveraging proven aircraft maintenance management solutions, properly adapting these solutions to unique environments, and augmenting with critical IT and lean support, Intergraph is able to deliver optimized aircraft maintenance solutions that increase aircraft availability, mission capability, and efficiency, minimize ownership costs, all while maintaining aircraft safety to the highest standard.

Other Solutions

IGS offers services and solutions across the U.S. Department of Defense as well as federal civil agencies. IGS solutions lead to impactful, effective, and cost-saving results. We also specialize in the following:

- Intelligent data integration from multiple sources through EdgeFrontier®
- Geospatial map production
- Natural resources and fire management
- Public works
- Energy management for both military installations and naval fleets
- Records management/FOIA request management
- Cyber security/Information assurance
- Anti-terrorism and force protection
- Border security
- IT System Support

ABOUT INTERGRAPH GOVERNMENT SOLUTIONS

Intergraph is the leading global provider of engineering and geospatial software that enables customers to visualize complex data. Businesses and governments in more than 60 countries rely on Intergraph's industry-specific software to organize vast amounts of data and infuse the world with intelligence to make processes and infrastructures better, safer, and smarter. The company's software and services empower customers to build and operate more efficient plants and ships, create intelligent maps, and protect critical infrastructure and millions of people around the world. Intergraph Government Solutions (IGS) is an independent subsidiary for Intergraph SG&I's U.S. federal business. Intergraph is a wholly owned subsidiary of Hexagon AB, (Nordic exchange: HEXA B).
